Reports.

The *Undine*, is from Foochow Amoy and Swatow. On the upward route the *Undine* was detained 50 hours in Swatow and 80 hours in Amoy on account of the very severe weather, arriving at Foochow on Sunday the 14th inst.—Left Foochow Wednesday Aug. 17th. arrived at Amoy 2 A.M. of the 18th. During the forenoon of that day, intelligence arrived by letter in Amoy that the str. *Soochow* was ashore in Owick Bay. The *Undine* was immediately despatched for that place. On arriving there at—8 P.M. communicated with the Chinese on shore, and found that crew, cargo and passengers of the *Soochow* had been taken on to Hongkong in a steamer the day following that of the vessels stranding, with the exception of 4 men described as Lascars who remained by the vessel up to the afternoon of the 17th. when they went over to Tong-sang.—Since the Europeans left the *soochow*, large parties of Chinese from the interior had come down and *completely stripped* the interior of the vessel, even carrying away all the wooden lining of state room, glass dead lights, side ports &c. &c.—Many Chinese boats were in the Bay when the *Undine* arrived, but on seeing her, hoisted sail and made off as quickly as possible. The *Undine* left Owick Bay at 10 P.M. Arrived Swatow 2 A.M. of the 19th.—Left for Hongkong 4.30 P.M. same day, arriving in Hongkong 11.30 Saturday morning (20th.) Passed the str. *Feloong* off Cape of Good Hope at 5 P.M. bound into Swatow, also a str. at 5.50 supposed *Sir Harry Parkes* bound up, and the str. *Union* bound down 8 P.M. The ship *Morning Star* bound to Shanghai with coals was towed into Amoy by the Gun-boat *Flamer* on the 17th inst. dismasted, and a large Spanish vessel arrived there the evening of same day, also dismasted. The *Formosa* was to leave Foochow on the 18th. The country around Swatow is completely inundated by the late heavy rains.

The *Undine*, has experienced mod erate West winds and fine weather since leaving Foochow.

Saw the English ship *Hastings* anchored in Ly-ee-moon pass and S.S. *Orissa* bound out.—

E. H. POLLARD, Esq.

The Scheme of a Local Bank for this Colony with Branches at the most important places in China, has been in contemplation for a very long period.

The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidly within the last few years that additional Banking facilities are felt to be required.

The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years.

This deficiency the Hongkong and Shanghai Banking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities.

The Establishment of a Mint in Hongkong, providing an adequate supply of proper currency, will render a local Banking medium essential to carry out its operations, and the almost certain disappearance of the existing Compradoric system (so far as money is concerned) will also ensure Banks becoming in course of time the exclusive medium for the transaction of the monetary operations connected with trade.

For the anticipated success of this enterprise there are therefore ample grounds; and the great prosperity which has attended the working of other local associations in China clearly shews that the largest profits are obtained by those Public Companies which possess an interested local body of Proprietors or Shareholders whose support naturally forms a chief element of remunerative success.

The Bank will commence operations simultaneously in Hongkong and Shanghai and as the importance of its business at the latter place must be very great, it is intended to establish a local Board of Directors there for more effectually meeting the work. As circumstances render it advisable the Bank will establish Branches at other places.

In the distribution of Shares Hongkong and Shanghai will equally participate. Shares will also be reserved for the other ports in China and Japan and for persons residing elsewhere, who are directly interested in the China Trade.

Applications for Shares must be addressed until further notice, to the Provisional Committee, care of

NOTICE.

It is respectfully announced to the Public that the under-mentioned shop was established in March last 1864 at Honam, in the left side of Cam-fa Temple and in the building of Ahew-shing, European goods shop, where Nanking Porcelain Jars adapted for holding sweetmeats, are made for sale, the price is 8 cents each. These Nanking Porcelain Jars are far the best that can be used for containing sweetmeats for exportation to Great Britain and America, as the sweetmeats in them are kept air-tight without ever being spoiled or changed.

But at the present time, most of the sweetmeat shops use Canton earthern Jars instead of Nanking Porcelain for containing sweetmeats, because the price of the Canton earthern Jars is only 2 cents each.

Although the prices of the two kinds of jars above mentioned are far different, but the latter kind will not keep the sweetmeats from being changed or spoiled, because they are not so well made as the former kind.

HONGKONG, 22ND AUGUST, 1864.

WE have been kindly furnished with the following authentic and highly interesting details of the history of the two retainers of the Prince of Nagato, who lately arrived at Yokohama from England and were sent by Sir Rutherford Alcock in H.M. steamers *Barrosa* and *Cormorant* to the Straits of Shimonoseki, in the hope of establishing negociations with their impracticable chief.

The steamer *Reiver*, our readers may remember visited Yokohama a little more than one year since. After her departure thence for Shanghai and when near the latter named port, it was discovered that five Japanese of the upper class had, in common parlance, "stowed themselves away." Upon being interrogated, they declared themselves followers of the Prince of Nagato, (or Chosin as he is usually called) and were bent on visiting England to learn engineering &c. As putting back to Japan was out of the question, they were taken on to Shanghai, and placed in charge of Messrs Jardine Matheson & Co. the owners of the *Reiver*. They were taken good care of, and allowed to remain, until replies to the letters written to Japan regarding them were received. These replies corroborated the wanderers' statement, and contained advice of $10,000 having been "paid in" towards their expenses in prosecuting their romantic intention. Mr. Jas. Whittall, who was the chief of Messrs. Jardine's house at Shanghai when these events took place, was already in England on the *White Adder's* arrival in the Thames, and as he felt an interest in the enterprizing strangers, he took steps to promote their welfare and to carry out the object of their visit. He had them placed in a first class school, and engaged a tutor expressly to take them out every day, for the purpose of exhibiting all the wonders of our vast metropolis—care being of course taken that they should see such establishments as would enlighten their engineering aspirations. The sights they saw, the information they obtained, the kindness and courtesy extended towards them on every hand, made such a deep impression on them that it was determined two of their number should return to Japan and tell the Prince of Nagato, their Lord and master, as well as their friends, relatives and countrymen, what happiness had fallen to their lot. They teemed in fact with wonder, gratitude, and delight, and they longed to enlighten those who were in darkness and in profound ignorance as to the effects of Christianity and Western civilisation.

This determination was duly carried out. The two selected to return to Japan took passage to Shanghae in a sailing vessel, and went across to Yokoama in the mail steamer *Nepaul*. They naturally placed themselves under the charge of their good friends, Messrs. Jardine, whose agent at Yokoama lost no time in introducing them to Sir Rutherford Alcock, who received them most kindly, fully entering into their views. The result, as our readers are aware, was that H. M. steamers *Barrosa* and *Cormorant* were detached from the fleet and were sent with the illustrious travellers to the Straits of Shimonoseki for the purpose of attempting to induce the Prince of Nagato to abandon his warlike attitude and allow vessels to pass unmolested through the Inland Sea. The two emissaries, as we suppose we may call them, appeared very sanguine as to the favorable result of their mission, for they said the Prince was deceived by every one, but will rely on their information, believe what they say, and in all probability follow their advice.

Several influential gentlemen in England connected with Messrs Jardines firm take a lively interest in the progress and welfare of the three who remain behind. Their conduct has been quite unexceptional, their attention to their studies unceasing, and their success considerable. One of them is either a Prince or the son of a Prince, and the others suitable associates in the scale of society. They never had any communication either with the Japanese ambassadors, or with any other officials. The whole affair was simply owing to Mr Whittall's urbanity and forethought upon the commander of the *Reiver* handing the young men over to him.

AT the meeting of the Legislative Council which took place last Monday, Governor Robinson laid the following estimate on the table.

FINANCIAL ESTIMATE FOR 1864.
Corrected to June, 1864.

Excess of Assets over Liabilities on the 1st January 1864,		$445,000.00
Probable Revenue for 1864,		$600,000.00
TOTAL,		$1,045,000.00
Probable Expenditure for 1864:—		
Ordinary Expenditure,	400,000.00	
Public Works,	460,000.00	860,000.00
Probable excess of Assets over Liabilities on the 31st December, 1864,		$185,000.00

And in reading for the first time the Ordinance to provide for the expenditure of 1865, he submitted the following.

FINANCIAL ESTIMATE FOR 1865.

Estimated Excess of Assets over Liabilities on the 1st January, 1865,	$185,000.00
Estimated Revenue for 1865, as per Schedule A of present Estimates,	$700,535.00
TOTAL,	$885,535.00
Estimated Expenditure for 1865, as per Schedule B of present Estimates,	778,420.00
Probable excess of Assets over Liabilities on the 31st December, 1865,	100,100.00

The schedules A and B referred to were not furnished the press. They doubtless contain information which Governor Robinson desires to conceal, lest it should be agitated by the Press and mooted at the second reading. Our readers are doubtless aware, yet still their attention cannot be too repeatedly called to the fact, that the deliberation which is supposed to be involved in three readings of an Ordinance in the Hongkong Council Chamber, is a complete delusion. The first reading consists in the Ordinance being laid upon the table, with such explanation as the Governor may vouchsafe—discussion at this stage is strictly prohibited. So much for the first reading.—There is no third reading whatever, and consequently every Ordinance is passed at the second reading, when only can any discussion take place. Doubtless it was the intention of the home legislature that the time between the first reading and the second shall be devoted by the Members of the Council, and by the Press, to the consideration of the subject-matter of the proposed ordinance, so that on coming up for its second reading it may be fully discussed.

But the entire system of administration in this colony has been subverted into a juggle, and this intention of the home legislature as well as all other checks made and provided for the guidance of colonial administrations, is eluded and rendered of no effect. It is not the custom here to furnish the Press with copies of Ordinances as laid upon the table at their first reading, and it is impossible for any reporter to give a correct detail of their contents. They are read, it is true, or rather mumbled in a most indistinct manner—and the more the Governor desires to suppress information, the more inaudible can the mumbling be made. It is true that all draft Ordinances as laid on the table at what is called their first reading, have to be published in the Gazette ten days prior to their second reading—but then it follows, not that fresh clauses cannot be introduced at the second reading—or the entire drift of the Ordinance changed by the Council going into committee to discuss it: and the intention of the home legislature can be evaded and violated in many other ways.

For instance, in the case before us, financial estimates referring to schedules are laid on the table—and the schedules are suppressed, at all events from the press.

For the reprehensible system which prevails here as above indicated, the non-official members of the Council are morally responsible. The Governor ignores the very existence of the Press—the non-official members, lest they should offend the Governor, make no use whatever of the Press, afford it no information whatever on local matters, and religiously keep all those secrets from it which the achievement of the Governor's schemes render it necessary should be kept. As for one of them using an argument during the discussion of an Ordinance which has been put forward by one of the papers—it would be deemed an act of hardihood and presumption totally unprecedented.

The pretext amongst the officials too for this treatment of the press, is that the institution in China has fallen so very low, that really it should be discountenanced by all respectable people. Well even so, it surely cannot be beyond redemption, and it might be worth while for the non-official members to make the papers the medium of discussion, and to supply them with the facts which they ought to know, and which the local authorities so studiously conceal until their intentions are achieved.

But at the same time we must take leave to say in defence of the Press, that if veracity, intelligence, integrity, and common sense are to be deemed the criterion of respectability, the institution is immeasurably in advance of the civil service of this colony—and strong language may be adduced as an argument against our position, still we submit even in that respect, that the the civil servants generally use much stronger language in referring to the Press, than the Press use in referring to them. What is more, the Civil Service bring blue book jugglery to bear on the Press, which as a system is far more reprehensible and base than anything which can be urged against the Press.

The non-official members of Council seem to fancy that it is not respectable to be at variance with the Governor. We think that they degrade themselves as Englishmen and as gentlemen by their subservience to so petty a potentate. As for ourself there is nothing that we despise more than local honors in this colony. We declare that we would just as soon take rank amongst the followers of Joe Smith or Brigham Young.

However, to return to the financial estimates before us. The only inference to be drawn from the face of them is that the expenditure for 1864 will exceed the revenue by $260,000, and that the expenditure for 1865 will exceed the revenue by $180,000.

In computing the revenue for 1865, upwards of $100,000 is added to the estimate of revenue for this year. Whether this $100,000 is to be the result of increased taxation, or of the profits of the mint, we are left in the dark. It is explained in Schedule A, which as we have said is suppressed.

We especially crave the attention of our readers to the vast and ever increasing proportions of our expenditure. The revenue of 1862 was estimated at $576,000, of 1863 at $566,500, of 1864 at $600,000, and of 1865 at $700,000. The reader will observe the revenue is made to increase although the profitable source of land sales is stopped, and although, the material prosperity of the colony is on the decline. This is done by increased taxation, and looking at the expenditure as recapitulated below, we should say that it is about time we should know at what point this taxation is to stop.

The estimated expenditure of 1862, was $576,000, of 1863 $600,000, of 1864 $860,000 and of 1865 $780,000. When the estimates for 1863 were laid on the table, Governor Robinson apologetically remarked on their amount, urging the pretext that the sums applied for would complete the gaol, the water works, and the Praya—three undertakings which had been a drag on the finances of the colony, but which being completed would leave its revenues free to swell its surplus and to decrease its taxation. Why we find that the expenditure for 1864 is $260,000 in excess of 1863, and that of 1865, $180,000 in excess!

Reader, bear with us another moment. If the estimated revenues of 1863 were taken as a standard, which we maintain they should be, the estimated expenditure of this year should exceed the receipts by $300,000, and that of next year $220,000! So much for Governor Robinson's promise that the standard expenditure for 1863 would materially decrease on the completion of the gaol, the water works and the Praya.

We maintain the prospects are alarming, and that it is high time there should be some unity of action, some public spirit displayed by the community. We believe that there can be no doubt as to the fact of the entire sewerage having been condemned by the local administration themselves; it is equally certain that the sea wall of the praya has been in like manner condemned. At the most moderate computation these works will cost one million of dollars to put to rights. The Secretary of State for the colonies insists on a contribution of £20,000 per annum from the revenues of the colony towards the military expenses of its garrison. These liabilities and demands can only be met by increased taxation. The life's blood of the colony consists in it being exempt from the extortionate taxation which oppresses the province of Kwangtung. We submit that we are threatened with an equally extortionate system of taxation, and as the neck of the Taiping rebellion is broken, the mandarins will stand in less need of money, and will therefore reduce their taxation whilst our scale is being increased. The effect must be that trade will resume its old channels, the advantages which brought commerce to this colony will be entirely lost, and marine lot holders may possibly be anxious that government should resume their property in acquittance for the crown rent.

We feel that our warnings should not be disregarded. For years we have denounced the waste and extravagance of our expenditure. We condemned the whole of the public works, especially the sewers and the praya, until failing to excite the public spirit of a community which entirely agreed with us, we became choked with their apathy. We foretold the rise of the colony, and if apathy is to be the order of the day, we prognosticate its fall. We are not visionary in our ideas, neither are we alarmists. We state our reasons in detail and plainly indicate the rock ahead. Let those who have interests at stake make themselves heard; if arguments will not convince them of their danger, surely figures should.

LETTER TO THE EDITOR.

To the Editor of the "Daily Press."

SIR,—I take opportunity through the medium of your valuable paper to give publicity to what has happened to me, not for the purpose of seeking further redress than what I have already received, which, I consider as much as the law under the circumstances of the case, could afford to a poor man who had not the means to uphold his grievances, but only to put the public on their guard as to what is likely to befall them should they be brought in personal contact with our *Protectors of Peace and Good Order.* I will not trouble you with the details of what took place between myself and one of the Police Inspectors, I will only state that after having been struck several blows by him, I went to the Charge room to complain, where I was followed by the infuriated Inspector who struck me again on the face in the presence of the officer on duty. This worthy myrmidon of the law, in his profound appreciation and regard for the administration of justice, thought convenient not only to refrain from taking the least notice of it, but to swear on his oath before the Magistrate when I summoned the Inspector who brutally and wantonly assaulted me, that he did not see it, stating also that I was drunk at the time, and the Inspector quite sober.

Mr. Editor if my actions were those of a drunken man, whatever the cause of the quarrel might have been, will you kindly inform me what the Inspector's were, who in the Central Police Station with several Constables round him committed such an assault on my person?—An answer will oblige, Yours.

P. CLEARY.

Second Edition.

Since writing the article which appears in our second page the Messageries Imperiales mail steamer *Hydaspe*, Capt. Armstrong has arrived from Shanghai with dates to 16th inst. From the *Friend of China* of 16th inst. we discover that H. M. S. *Barossa* and *Cormorant* have been fired into. Date of departure of *Shooey-leen* not given.

The British Steamer *Shooey-leen* arrived from Kanagawa this forenoon. Just as she was leaving, H. M. S. Barossa arrived from the Inland Sea with the painful intelligence of having been fired on by the Prince of Chosieu's batteries. We term it painful, for how it would seem that we have no alternative but to give His Highness a dressing which shall prove a lesson both to him and to all other of his brother repellent Damios.

We are still assured by parties who have means of knowing that our first story of the evacuation of Nanking by its Soldiery, before the Imperialists sprung their mine and rushed in, was the correct story;—all those thirty thousand massacred individuals told of by the *Recorder* (but *not* mentioned at the Asiatic Society with the "flushing of a pleasant") being inoffensive men, women and children!

The Chung Wang, it is said, is not dead. He is at Hoochowfoo, while the *Tien Wang* is still in the body.

The American steamer *Chekiang* belonging to the Shanghae Steam Navigation Company has been to totally destroyed by fire at Hankow, the *Far East* was only saved from a similar fate by being built of iron; the burning vessel was alongside of her—The *Mayune*, *Kiukiang* and *Kiang-loong* had to slip their anchors to avoid the *Chekiang*.

News has been received from Ningpo, to the effect that the Imperialists and the Franco-Chinese have experienced a defeat at Hoochow by which five or six officers have been killed, and more than fifty wounded. It is said that M. D'Aigabelle is likely, in consequence, to come to Shanghai to ask advice from the French military authorities here. We have received no particulars; but believe the above information to be reliable.—*Friend of China.*

Through the kindness of a gentleman who has just come down the Yangtsze, we learn that at daylight on the 2nd instant, the Chung Wang was beheaded at Nanking. It is said that he was not tortured before his execution. He kept his courage up to the last, and obstinately refused to do obeisance to any of the high officials before whom he was brought. He disclaimed all connection with the rebels at Hoochow.—*Shanghai D. S. & C. N.*

HONGKONG VOLUNTEERS.
BATTERY OF ARTILLERY.

1.—The Commandant has changed his views, owing to the excessive heat and difficulties of landing at low water from the steamer and also to save time, the Battery (weather permitting) will parade THIS EVENING, and every other Evening this week, except Saturday, unless the practice is previously completed, at Peddar's Wharf, at 4.15 sharp, and proceed across to Kowloon in Covered or House boats, for Artillery practice which will be under the supervision of Lieut. Perceval, R.A.

Dr. Murray will be good enough to arrange for the attendance of a Medical Officer.

RIFLE COMPANY.

As there will be no Drill this week,—Members and others are recommended to attend the Practice.

Volunteers attending the Artillery practice must appear in Summer Clothing and Regulation Helmets, no Pouch or Sword Belts, except latter for Officers only. After this order any Members of the Corps watching the practice out of uniform near the Battery will be ordered away.

Band practice as ordered by Sergeant Storey, who will see that all the Musicians possess Regulation Helmets.

NOTICE OF REDUCTION OF PASSAGE MONEY.

IN the year 1857 the Directors made a considerable reduction in the Company's rates of Passage Money, which continued in force till 1861.
In that year, owing to the extraordinary rise in the Cost and Freight of Coals, and the enhanced price of all descriptions of Naval Stores, the Directors were reluctantly compelled to return to the rates of Passage Money previously in force. They are now happy to state that a decrease in the price of Coal and other expenses of Steam Navigation enables them to reduce the Company's Passage rates to the undernoted scale, which will take effect from and after the 1st June next, viz:—

From Hongkong to—

Suez,	$450
Malta,	510
Marseilles,	530
Gibraltar,	530
Southampton,	550

Reserved Rates for Single Persons.

Suez,	$920
Malta,	1,020
Marseilles,	1,060
Gibraltar,	1,060
Southampton,	1,100

Reserved Rates for Married Couples.

Suez,	$1,160
Malta,	1,260
Gibraltar,	1,348
Marseilles,	1,348
Southampton,	1,388

The charges for Children are in proportion to the above.
The above rates are exclusive of the amount payable to the Egyptian Transit Administration for conveyance of Passengers through Egypt, viz:—
For First-class Passengers, $32
Children above three and under ten years, half-fare.
By Order of the Managing Directors,
